

# *Fishing Game*

Kiddy game

## **-DESCRIPTION:**

The player drops the end of a fishing line into a pocket mounted on a vertical painted board and a person behind the game unit places a prize on the end of the fishing line.

## **-HOW TO SET UP GAME**

Simply open the game unit and set it 3 feet from the front of the booths  
Make sure the booths have a low-panel on the front.

## **-HOW TO PLAY**

- 1) You need at least two people to run this game. One to sit behind the game unit and hand out prizes and the second to stand in front of the game unit and collect tickets from the player and hand them their fishing pole.
- 2) The player drops the end of the fishing line into the pocket on the game unit and the person behind the game unit inserts a prize into the net on the end of the fishing line.

## **Materials and or Items you need to supply for this game:**

A chair for the person behind the game unit.

## **-SUGGESTED PAY OUTS**

Because this is a kiddy game and every player wins you need to make sure the prize is at least  $\frac{1}{2}$  the cost of the price to play. You also need physically small prizes. The prize needs to fit in a 2 inch by 4 inch net.
